

Inviting EOIs

Mobile App Development

SPXEOI/MAPP/02/2025

The South Pacific Stock Exchange (SPX) is Fiji's sole securities exchange, operating under a license from the Reserve Bank of Fiji.

SPX invites Expressions of Interest (EOIs) from qualified and experienced firms to design and develop a mobile application that will serve as a key channel for market engagement and investor access.

The project aims to develop a mobile app that delivers real-time market information, investor tools, and educational content, with a key feature being the digitized investor onboarding process. The app must securely integrate with external systems via APIs to handle dynamic financial data and offer a scalable, user-friendly interface.

Eligibility

EOI respondents with a proven track record in developing mobile apps for financial services, particularly those involving API integration and real-time market data—will qualify to receive the RFP.

EOI Submission

Interested firms should submit a signed letter of interest, including a company profile and relevant experience, addressed to the CEO of SPX. EOIs must be emailed to info@spx.com.fj with the subject line “Mobile App Development – SPXEOI/MAPP/02/2025” by 5:00 PM FJT on 5 May 2025.

Eligible firms will receive a detailed Request for Proposal (RFP).
